How IT Works

Step 1 - Needy approach Udaarta

We have a tie up with renowned hospitals like Narayana Hrudayalaya/ People Tree etc. Patients who cannot afford to pay for the expenses approach us with their case for critical health care requirements.

Step 2 - Due-diligence

Udaarta Team does the due diligence of the case and the panellist endorses the case for funding. Only after the endorsement from the Head of the Hospital and Udaarta Panelist the case will be campaigned Udaarta's website

Step 3 - Donation for a cause

The case is then open for people to see, understand what the patient is suffering from, why he needs the funding and how much financial help he needs. The donor then chooses the patient to ate his/her money to. He also has an option to donate thru cheque / online. There are no additional charge Udaarta will levy the donor. 100% of the money will be donated towards the patients well-being

Step 4 - Donor's visibility to funds

The donor gets an acknowledgement of his donation and also gets to know who all donated for a particular case. The donor also gets an update on utilisation of the fund: e.g: Receipt from the hospital.

Step 5 - 80G Certificate Issuance

We are in the process of getting the 80G certificate .Once we have permission to issue you a 80G certificate we courier the certificate to your address

All donations made will go into the UDAARTA account from there the donations will be directly passed to the Hospital account where the patient is undergoing a treatment
